

Bulk Bins

Date of Publication 2/11/2009

Every residential property within the City of Belmont is entitled to four **FREE** bulk bins each financial year.

You can choose between BLUE bins for household material or GREEN bins for garden waste.

Residents are encouraged to use the green bins for green waste such as branches, fronds, prunings & lawn clippings (not turf or sods).

This is a great way of saving precious landfill as your green waste will be made into mulch.

To order a bulk bin please call Transpacific Cleanaway's Waste Management Customer Service Centre on:

9449 3344

Council's waste contractor, Transpacific Cleanaway, will take your bin order over the phone and give you an approximate waiting time.

You can call between 8:30am to 5pm, Monday to Friday.

Any other enquiries regarding your rubbish or recycling bin should also be reported to Transpacific Cleanaway.
